

MEET CHAUHAN

Full Stack Developer | Anand, Gujarat, India

+91 91064 77426 | meetaj369@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Tech-enthusiastic BCA graduate with hands-on experience in Full Stack Web Development across front-end and back-end technologies including C, C++, Java, JavaScript, HTML, CSS, PHP, SQL, and MySQL. Proven ability to design, build, and debug scalable web applications through academic and independent projects. Holds certifications in AI, Machine Learning, and Data Science. Eager to leverage strong problem-solving skills and a collaborative mindset to contribute to a results-driven development team.

TECHNICAL SKILLS

Languages: C, C++, Java, JavaScript, PHP, SQL, VB.Net

Web Technologies: HTML5, CSS3, JavaScript (ES6+), PHP, MySQL

Databases: MySQL (XAMPP), Basic SQL — CRUD, joins, queries

Concepts: OOP, MVC Basics, Responsive Design, REST API Fundamentals, Debugging

Tools & IDEs: Visual Studio Code, Visual Studio, NetBeans, Eclipse, XAMPP, MySQL Workbench

Certifications: Artificial Intelligence (AI), Machine Learning (ML), Data Science, Web Development

ACADEMIC PROJECTS

Web Application Development — Full Stack Project

- Designed and developed a multi-page web application using HTML, CSS, JavaScript, and PHP with MySQL as the backend database.
- Implemented dynamic data handling — user registration, login authentication, and CRUD operations — ensuring data integrity and correct query execution.
- Debugged front-end and back-end issues systematically, reducing errors and improving application stability before final deployment.

Database-Driven Application — SQL/MySQL

- Built a relational database schema with normalized tables, foreign key constraints, and optimized queries to support application data requirements.
- Validated SQL queries for correct data retrieval, insertion, update, and deletion operations under varied input conditions.
- Conducted structured testing of form inputs and data flows to verify end-to-end functionality and error handling.

EDUCATION

Bachelor of Computer Applications (BCA) | Charutar Vidya Mandal University

June 2024 – June 2027

CGPA: 8.67 / 10.0

CERTIFICATIONS

- Artificial Intelligence (AI) - Fundamentals and Applications
- Machine Learning (ML) - Core Concepts and Algorithms
- Data Science - Data Analysis and Visualization Fundamentals
- Web Development - Full Stack Fundamentals (HTML, CSS, JavaScript, PHP)
- Claude AI – AI-Assisted Coding, Debugging & Development Workflows

ADDITIONAL INFORMATION

Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration, Quick Learner, Attention to Detail

Interests: Full Stack Development, Open-Source Exploration, AI/ML Applications, Building Scalable Web Solutions
